

The SMARTA-NET bus stop contest

- We would like to engage the lighthouse sites and their community.
- Please
 - motivate local stakeholders to take **pictures of attractive bus-stops** in your region and
 - send the best ones to rieka.oldsen@nit-kiel.de by May, 6th, 2024 (max. 3 per lighthouse site).
 - There is no such stop? What about changing this situation with the help of some colour or furniture? But: Please contact the owner before you start being creative!
- **Which stop will get most votes at the 5th ERMN-meeting in Evora?**
- The pictures of the winning bus-stops will be shown at the final conference – and all others are hopefully motivated to copy the ideas.
- The idea behind: While looking for the best one, the stakeholders will find many stops that are not attractive at all. They might wonder who is responsible for the stops and perhaps some of them will decide to change the situation.
