

European Rural Mobility Network Meeting

Èvora, Alentejo, Portugal, 15-16th May

Optional session

The future of the ERMN

Optional Session – Future of the ERMN

- What could be the main mission/themes of the network?
- Where does the ERMN network naturally fit? What's the focal point?
 - Mobility (DG MOVE);
 - Rural development (AGRI);
 - Government layers (REGIO);
 - Decarbonisation (DG CLIMA)
- Could the ERMN be a voice led by the local level, for the EU, National, and Regional governments?
- Does the ERMN need a new network, or could it be integrated within an existing one?
- Who are natural members of this network? If municipalities, which departments?
- Is there an interest from within the current ERMN members to lead the way forward?

THANK YOU
